Dear Engr. Cuenca/CLENRO

Subject: Request for Garbage/Waste Collection

I am writing to kindly express my concern about the infrequent garbage collection in Ecoverde Homes Kaiyo, Sitio Macapaya, Upper Camaman-an. In recent weeks, we have observed that the garbage truck has not visited our area, resulting in overflowing common dustbins.

Furthermore, the street outside our subdivision have become littered with garbage, leading to an increase in flies, mosquitoes, and other pests in the neighborhood. This unsanitary condition poses a potential risk of disease transmission among the residents.

Our interim officers are currently in the process of registering our association with DSHUD. As a result, we are yet unable to collect monthly dues to hire a garbage contractor company. We are disappointed to learn that the developer has not been paying any fees to arrange for garbage collection for our small community. The PMO of Kaiyo has only been requesting to include us as a favor rather than paying the fee to regularly collect our waste, as evidenced by the recent meeting attended by two of our Board of Trustees at the Barangay Hall of Camaman-an on June 6th.

In light of these challenges, we are reaching out to you and the local authority for assistance. Despite this setback, we are committed to registering our association with DSHUD as soon as possible. In the meantime, we humbly request that you include us in the regular garbage collection schedule for our area, if possible. We will ensure to keep you updated on our progress with DSHUD registration.

We believe that maintaining a clean and healthy environment is a shared responsibility, and we hope for your support in addressing this matter. Thank you for your time and attention to this important issue.

Yours sincerely,

Angela Marie Velayo

KAIYO HOA Interim President
